

Marble Mart CRM System

Smart Sales, Inventory & Billing Solution

OVERVIEW

What is Marble Mart CRM?

Marble Mart CRM is a purpose-built business management system designed exclusively for marble, granite, and tile dealers. It brings together customer management, inventory tracking, order processing, GST invoicing, and sales analytics — all in one clean, easy-to-use platform.

■ Built for Marble Businesses

Designed around the real workflows of slab dealers, contractors, and retail showrooms.

■ One Platform, Everything

Replaces spreadsheets, WhatsApp chats, and manual registers with a single system.

■ Real-Time Visibility

Know your stock, payments, and leads at any moment — from any device.

CHALLENGES & SOLUTION

Why Marble Businesses Need a CRM

■ ■ Common Pain Points

- Manual order tracking leads to costly errors
- Payment follow-ups done over WhatsApp — prone to confusion
- Inventory mismanagement causes stockouts & over-ordering
- No visibility into which products or customers drive revenue
- GST calculations and invoice generation done manually

■ How CRM Solves It

- Centralised customer & order records, always up to date
- Payment status (Paid / Partial / Unpaid) tracked automatically
- Live inventory with low-stock alerts and reorder triggers
- Reports & dashboards show top products, revenue by region
- One-click GST invoice generation with auto calculations

Why Marble Businesses Need a CRM

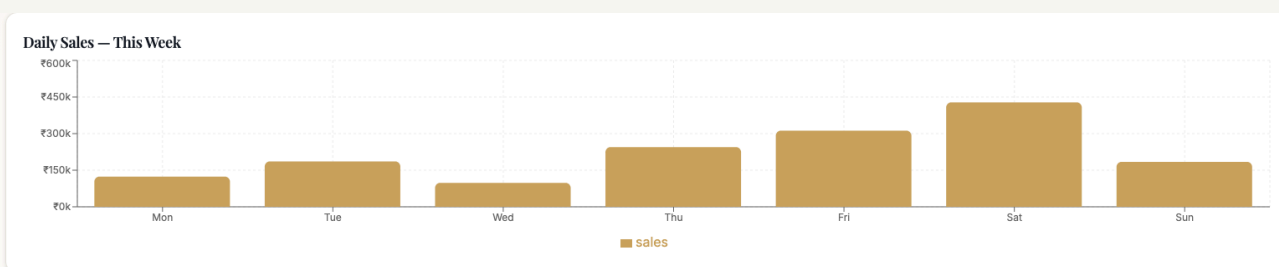

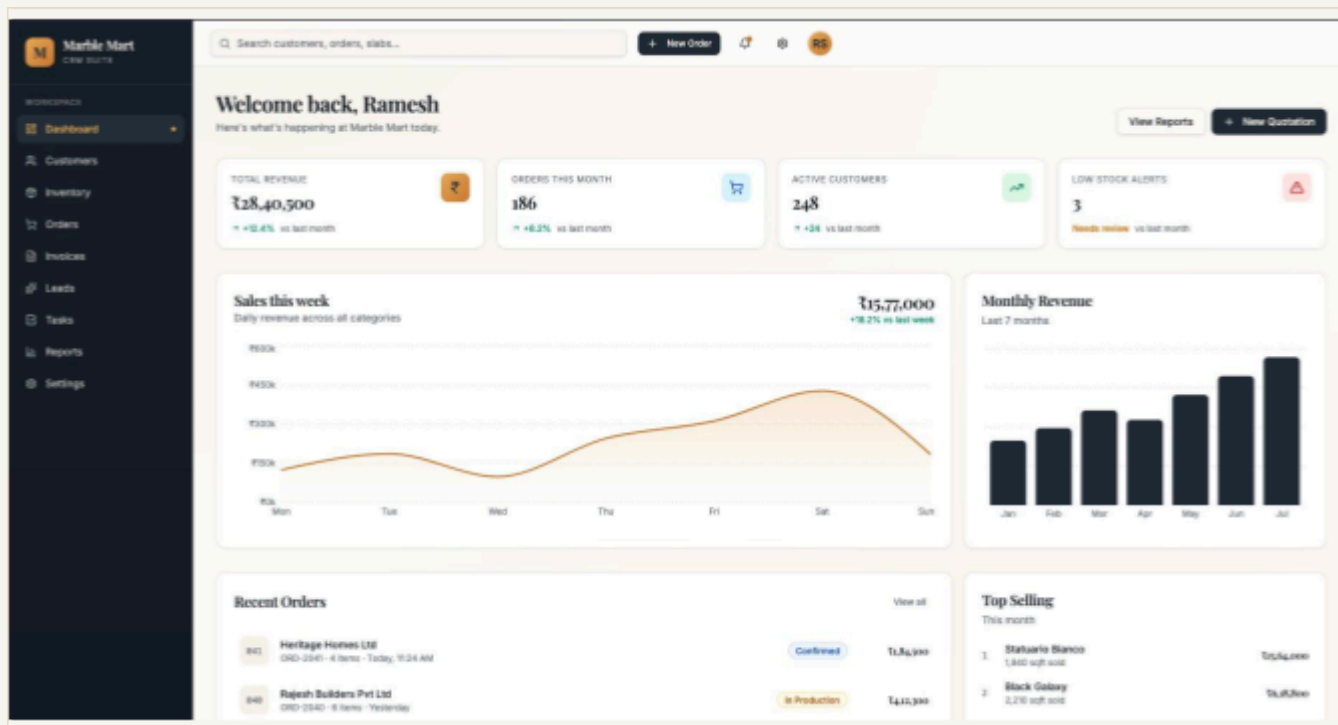

■ ■ Common Pain Points

- Manual order tracking leads to costly errors
- Payment follow-ups done over WhatsApp — prone to confusion
- Inventory mismanagement causes stockouts & over-ordering
- No visibility into which products or customers drive revenue
- GST calculations and invoice generation done manually

■ How CRM Solves It

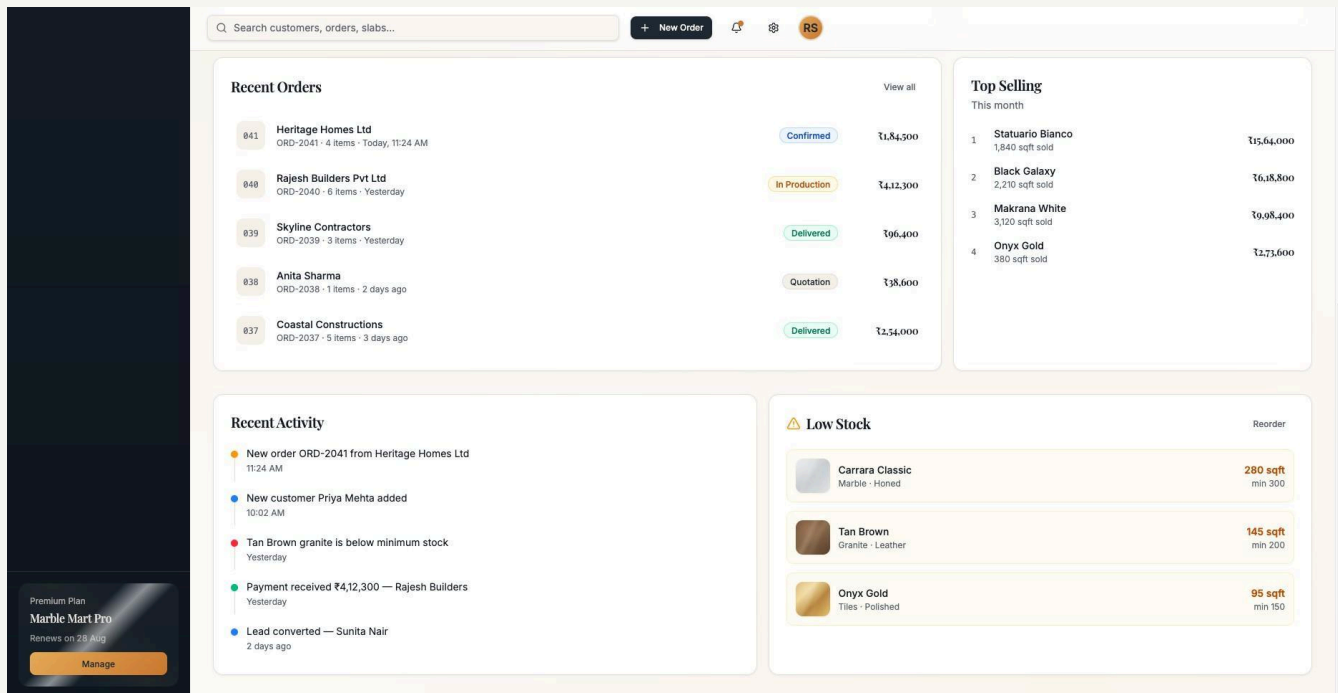

- Centralised customer & order records, always up to date
- Payment status (Paid / Partial / Unpaid) tracked automatically
- Live inventory with low-stock alerts and reorder triggers
- Reports & dashboards show top products, revenue by region
- One-click GST invoice generation with auto calculations

Business Dashboard

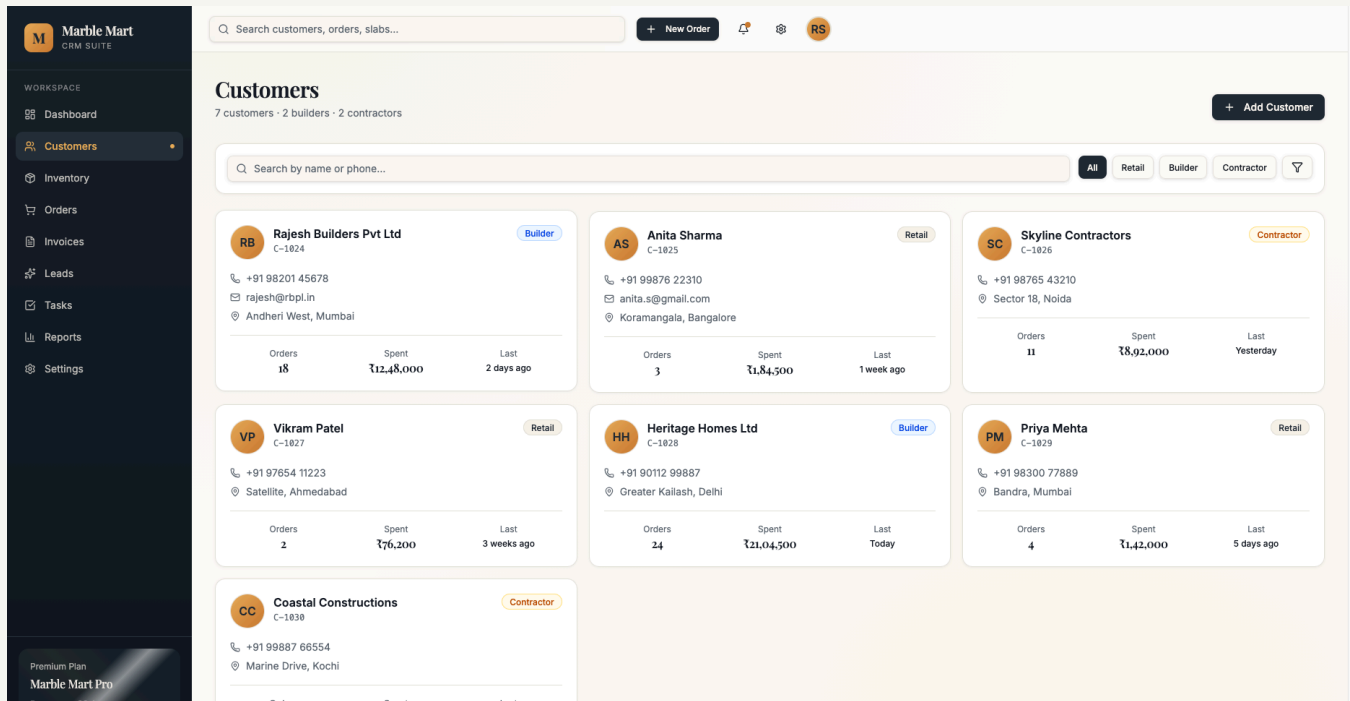

- At-a-glance view of Total Revenue, Active Orders, Customers, and Low-Stock Alerts
- Weekly sales trend line with daily revenue breakdown across all product categories
- Recent orders list with status tags (Confirmed, In Production, Delivered)
- Top-selling products and Monthly Revenue bar chart for quick performance review

Dashboard — Activity & Low Stock

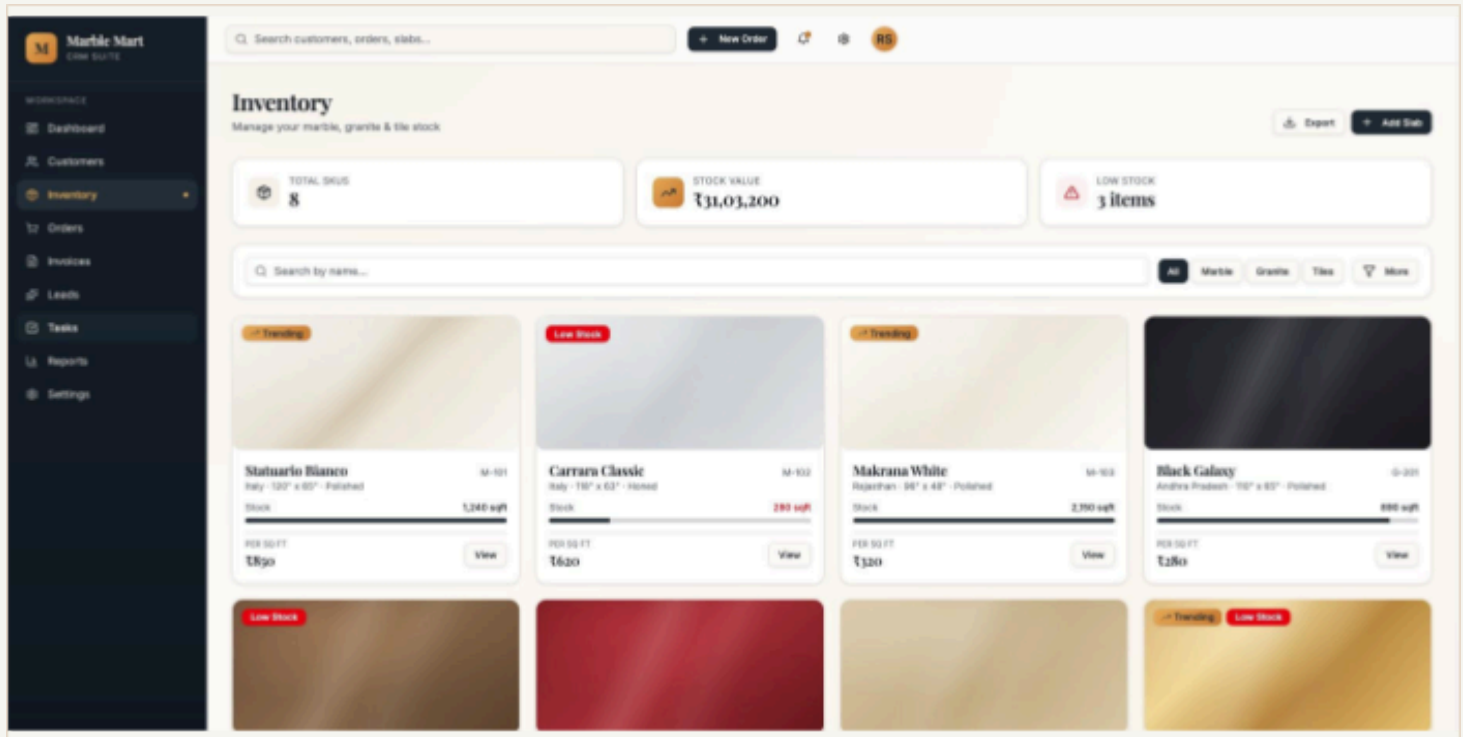

- Recent activity feed keeps the whole team in sync without extra calls
- Low-stock panel highlights items below minimum threshold with a one-click Reorder link
- Daily Sales bar chart shows peak days — helping plan staffing and promotions

Customer Management

- Customer cards display type (Retail / Builder / Contractor) with contact details and location
- Quick-glance stats: total orders placed, total spend, and last order date per customer
- Filter customers by category (All / Retail / Builder / Contractor) in one click
- Add new customers instantly and link them to orders, invoices, and leads

Inventory Management

- Visual slab gallery with Trending and Low Stock badges for instant awareness
- Real-time stock levels (in sq ft) with progress bars — critical items highlighted in red
- Filter by material type: All / Marble / Granite / Tiles with search by name
- Total SKUs count and aggregate stock value visible at the top of every session

Order ID	Customer	Date	Items	Total	Status	Payment	Action
ORD-2041	Heritage Homes Ltd	Today, 11:24 AM	4	₹1,84,500	Confirmed	Partial	View
ORD-2040	Rajesh Builders Pvt Ltd	Yesterday	6	₹4,12,300	In Production	Paid	View
ORD-2039	Skyline Contractors	Yesterday	3	₹96,400	Delivered	Paid	View
ORD-2038	Amita Sharma	2 days ago	1	₹38,600	Quotation	Unpaid	View
ORD-2037	Coastal Constructions	3 days ago	5	₹2,54,000	Delivered	Paid	View
ORD-2036	Priya Mehra	5 days ago	2	₹64,200	Delivered	Partial	View
ORD-2035	Vicram Patel	1 week ago	1	₹28,400	Cancelled	Unpaid	View

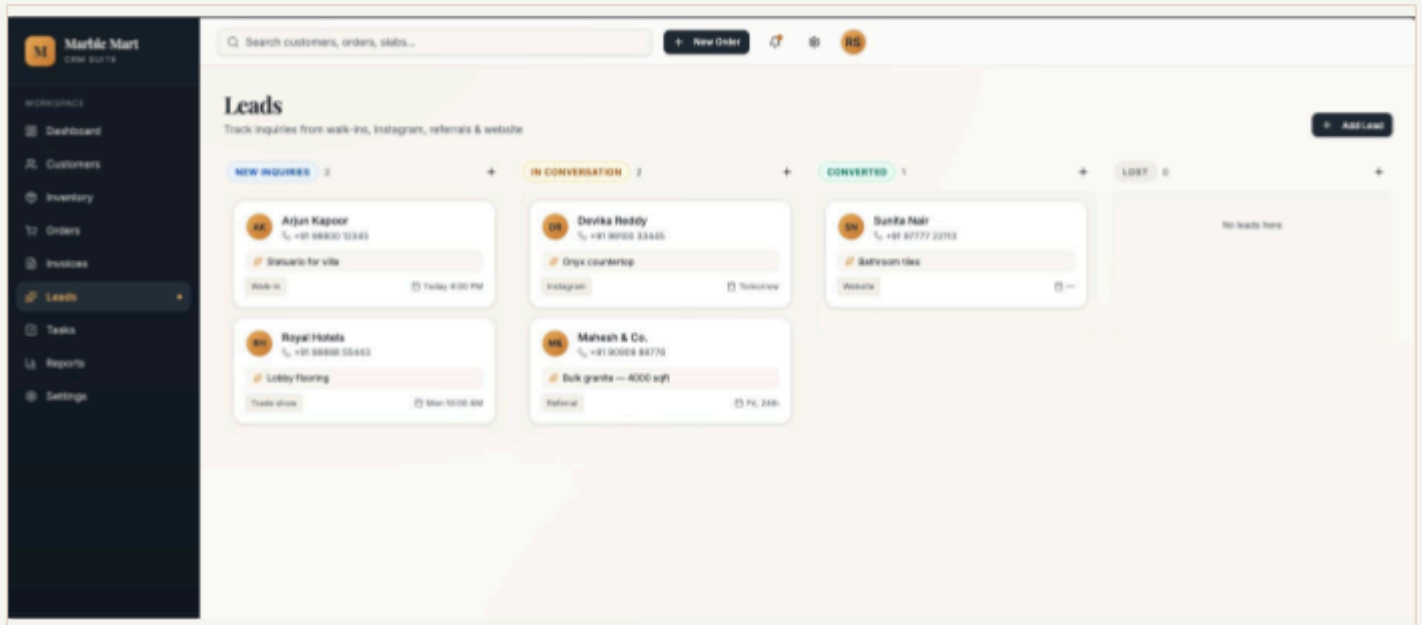

- Full order list with status pipeline: Quotation → Confirmed → In Production → Delivered
- Payment column shows Paid / Partial / Unpaid at a glance for faster collections
- Filter by status tab; export order data for accounting or logistics teams
- Quick-view summary cards: Total Value, Pending, In Production, and Delivered counts

GST Invoicing

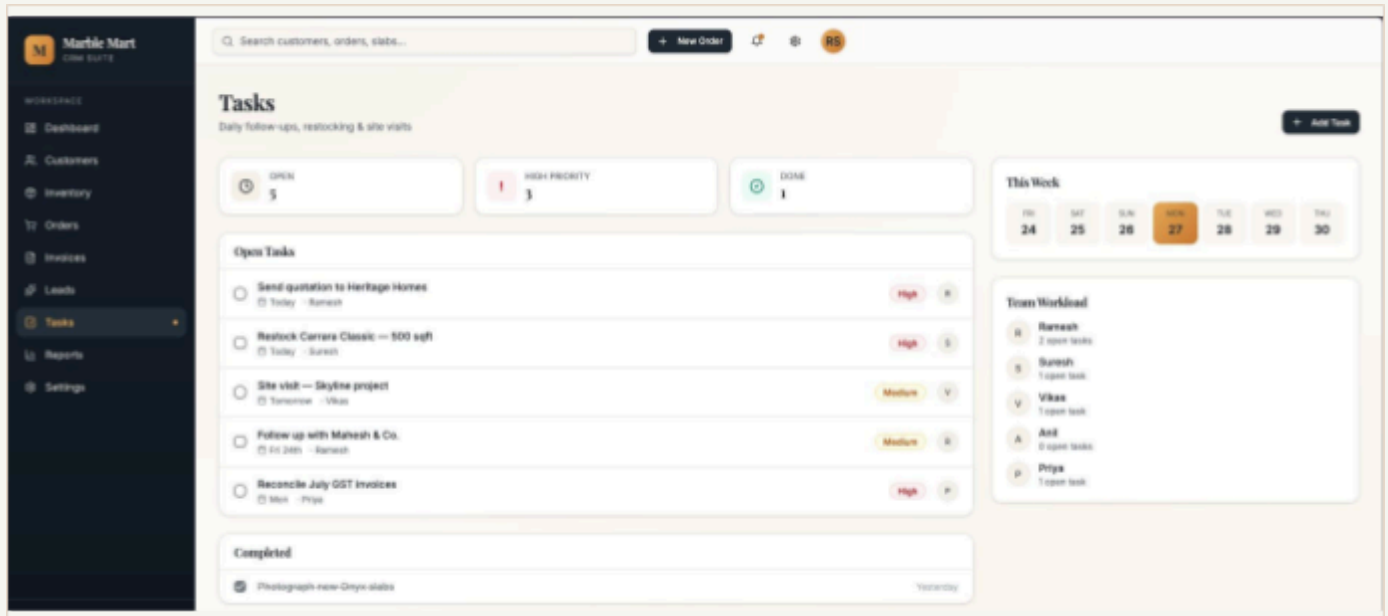

- Auto-generated GST invoices linked to each order — download as PDF instantly
- Three billing stats at the top: Total Billed, Collected, and Outstanding amounts
- Invoice list shows payment method (UPI / Bank Transfer) and status badge
- Filter by Paid, Partial, or Unpaid; export all GST data with one click

Lead Tracking

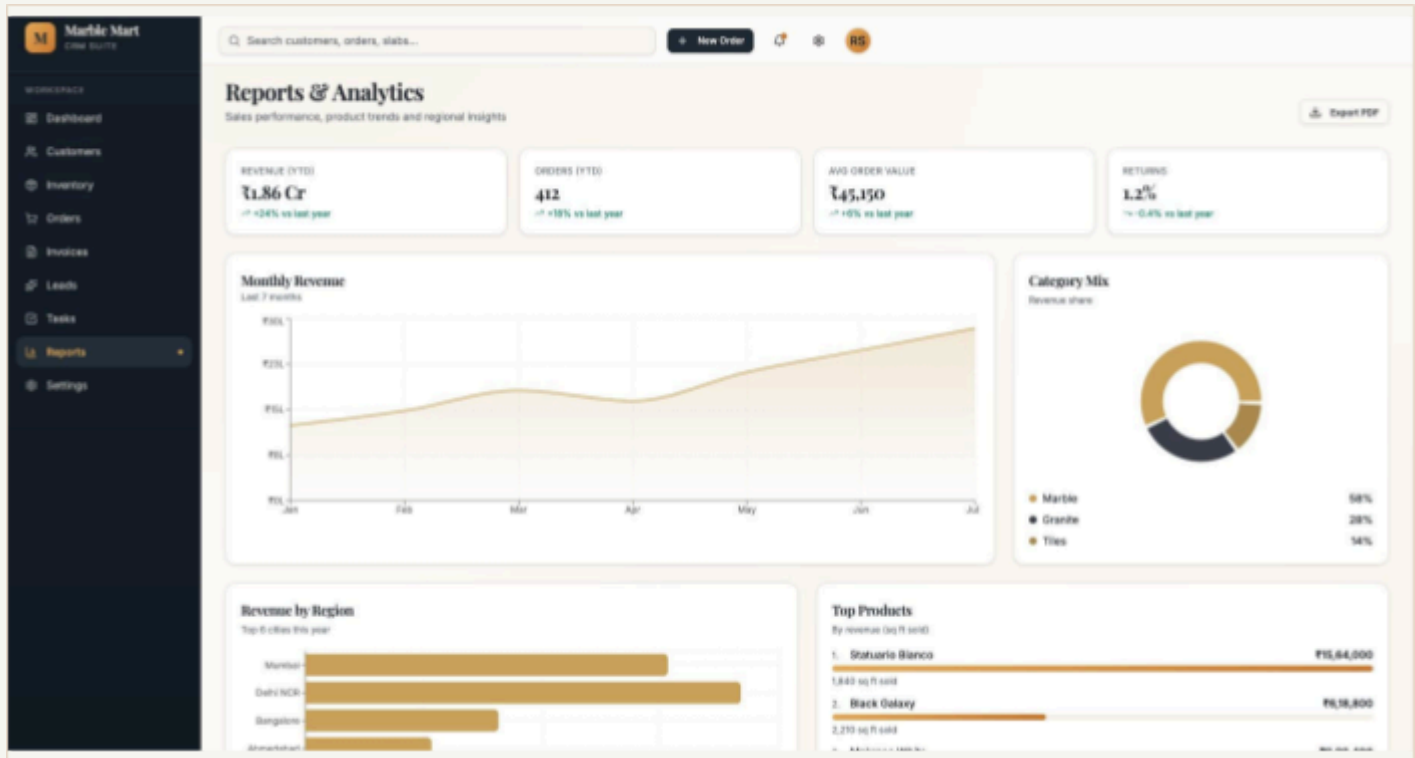

- leads board tracks every enquiry: New Inquiry → In Conversation → Converted → Lost
- Lead source tags (Walk-in, Instagram, Referral, Trade Show, Website) for marketing insights
- Scheduled follow-up date and time visible on every lead card
- Convert a lead to customer with a single action — no data re-entry required

Daily Task Management

- Centralised task board for the whole team — open, high-priority, and done counts at a glance
- Each task shows due date, assigned team member, and priority level (High / Medium)
- Team Workload panel shows open task count per person for balanced assignment
- Weekly calendar view helps plan site visits, restocking, and client follow-ups

Reports & Analytics

- YTD Revenue, Orders, Average Order Value, and Returns in one consolidated view
- Monthly Revenue area chart shows growth trend over the last 7 months
- Revenue by Region (top cities) and Category Mix (Marble / Granite / Tiles) donut chart
- Top Products ranked by revenue with sq ft sold — export entire report as PDF
